

## 12 Feet of Love Scarf

This scarf can be any length, width or use any yarn you desire. This makes it a great stash buster project.

**Length:** As the title suggests, the project I knit was 12 feet including fringe. You can stop at your desired length.

**Width:** Approximately 5 ½". If you want a wider scarf; you can make it wider simply add pairs of (2) stitches until it is the desired width.

**Yarn:** I used Aran weight, but this pattern can be used for any yarn weight. If you use a thinner yarn, add more pairs of stitches, a thicker yarn will require a pair or two less. The best thing is to knit a gauge swatch with the whatever yarn you plan to use.

### Supplies:

- Needles: Size 9 or whatever gives you the appropriate or preferred gauge.
- Yarn: I used 600-700 yards of Aran weight
- Darning needle to weave in ends.

### Directions:

Cast on 16 stitches.

Start setup row: \*K1, yarnover (yo), slip 1 purlwise; repeat from \* to end of row

Next row and every row after: \*K2tog (the slip 1 and yo of the previous row), yo, sl1; repeat from \* to end of row

When the scarf is the desired length, do bind off prep row: P1, K2tog across

Bind off 16 remaining stitches

Weave in ends

If desired, add fringe and trim to preferred length.
